

★ PRACTICAL=4 ★

Aim:= Write a C program to interchange two numbers.

Filename := interchange.c

```
#include<stdio.h>
#include<conio.h>
void main()
{
int a,b;
clrscr();
printf("Enter the value of a = ");
scanf("%d",&a);
printf("Enter the value of b = ");
scanf("%d",&b);
a=a+b;
b=a-b;
a=a-b;
printf("a = %d\nb = %d",a,b);
getch();
}
```

OUTPUT:

```
DOSBox 0.74, Cpu speed: max 100% cycles, Frameskip 0, Progra...
Enter the value of a = 16
Enter the value of b = 98
a = 98
b = 16
```
